Career Presentation

Instructions: Now that we have explored some careers and the education and training required for those careers, you are going to create a presentation about a chosen career. Your presentation will cover information about your chosen career and the path it will take to get there beginning with the things you can do while at Leyden. Be sure to follow the elements of good design principle when creating your slides.

Slides you need to create:

- Title slide
- Career description with video
- Tasks and responsibilities
- Work environment
- Education and training
- Qualities and skills
- High school preparation - Section
    - Leyden Classes
    - Extracurricular activities
- Work and volunteer experience
- Post secondary preparation - Section
    - College, university, trade school or training courses
    - Internship or apprenticeship opportunities
- Conclusion
