Advanced Google Searches Scavenger Hunt

Instructions: Use the Google Tricks demonstrated in the video and on our slides to complete the scavenger hunt and record your answers below.

1) **Search Operators (Tom Cruise +scientology)**
   Use search operators (+ or -) to find results for jaguars; the animal not the car or the football team. What is the first result that appears (add the link below)?

2) **Describe a situation when you would use the + or - signs while doing a search. Give a very specific example.**

3) **Image Search w/Lens (Rt click, Search Google for Image with Lens)**
   Click on THIS link to see an image with a bunch of world landmarks. Right click on the large image and select the "Search Image with Google". Use the Lens to select the first landmark on the left side of the image. Based on the results, what is the name of the landmark? Write it below.

4) **Describe a situation when using the Google Lens feature would be helpful. Give a very specific example.**

5) **Date Search (Tools > Any Time dropdown)**
   Use the search term digital footprint. Narrow the results to only results that are from this year. What is the first result that is listed? *Hint you will need to use a custom range.*

6) **Describe a situation where it would be very important to use the date search. Be specific.**

7) **Advance Search (https://www.google.com/advanced_search)**
   Use the advanced Google search feature to find information about Taylor Swift from sites in the last 24 hours. What is the first result?

8) **Describe a situation where it would be helpful to use ANY of the Advanced Search features. Be specific.**

9) **File Type (filetype:pdf)**
Find a PDF link for the book “Minority Report”.

10) **Describe a situation where it would be very important to use the filetype search. Be specific.**
