

Welcome to Braden FTM Cascadian's Custom Video Bureau!

You can use the tabs on the left side of this document to navigate to the section you need.

Introduction

Hello! My name is Braden FTM Cascadian, and I LOVE filming custom videos! Between 2015 and 2023, I shot over 300 custom videos for fans and friends alike. After a 2.5-year hiatus, I am excited to be back making your dreams come to life on screen. This document contains all the information you need to maximize your custom video ordering experience. If you're looking for a limits section, you won't find one. I consider myself a jack-of-all-trades and am eager to try new things! Have an idea you're not sure about? Just ask! The answer will likely be yes.

Process and Timing

Before buying, [send me a message describing what you want](#). If you need inspiration, [check out the Adoptables section](#) of this document. I'll ask some clarifying questions before accepting or declining your request. Then, you place your order through your preferred site. You reserve the right to place a direct order with me via an independent payment platform, not through any clipsite. Please know that it is safer for you to order via one of the websites than to send cash to a random person on the internet!

I usually complete a custom video within 2-4 weeks, but sometimes I take longer. I'll keep you updated as I make your video. [You can ask for updates at any time](#). Once complete, I will upload the video to the clip platform (or email you a downloadable link if you paid me directly) and you will be able to download the video for your own personal archive.

Available Props

Name of Prop	Image	Tiers
<p>Male Torso - Front</p> <p>*Note: this torso is nearly life-sized.</p>	 A realistic male torso prop, likely made of silicone or a similar material, lying on its back on a brown fabric with a dark, repeating geometric pattern. The prop shows detailed musculature, including the pectorals, abdominal muscles, and obliques. The arms are bent at the elbows, with the hands resting near the chest. The head is not visible, and the legs are also bent at the knees.	<p>A, C, D, E, E2, E3</p>

Male Torso - Back

*Note: this torso is nearly life-sized.

A, C, D, E, E2, E3

Femme Torso

*Note: this torso is small, at 11 inches (~28 cm) from the top of the neck to the bottom of the thighs. Best used in POV shots where the viewer wants to be perceived as smaller.

Available Locations

You do not have to select a location if you do not want to! I provide these options to help you get ideas for what you would like to see me do. Please keep in mind that not every location is available for every video idea. Some are only available seasonally, and some high-traffic areas (like the kitchen, dining room, Bedroom B, and The Truck) may impact the speed of your video delivery.

Location	Image	Will this impact the speed of your video delivery?
Kitchen		+2 days average
Dining Room	<i>Photo coming soon.</i>	+2 days average

Warhammer Dungeon

*Note: since this photo was taken, we have filled all of the walls with Warhammer art, replaced the chairs, and put in display shelves for large Warhammer models, including a Warlord Titan. New photo coming soon.

No additional time needed.

Bedroom A

*Note: There is not much space in this room, as it is primarily just the bed. The video will be shot in a tight shot or even a top-down angle, to maximize use of set space. There is one window stage right to the bed that can provide excellent natural lighting.

+4 days average

Bedroom B

*Note: updated photo coming soon. New art added behind bed, string lights moved, and dark curtains now frame the bed space. There is a window to stage right of the bed that allows for nice natural light.

No extra time needed.

Bathroom

Equipment

Recording Equipment:

Canon EOS Rebel T6i DSLR with standard lens

DJI Osmo Pocket 1 *with mic*

Sony AX53 Handycam

iPhone 11 Pro Max

iPhone 14

SD Cards:

128GB Sandisk Extreme Pro

128GB Sandisk Extreme Plus

256GB Sandisk Extreme Plus MicroSD

Editing Software:

For video editing, I use the free version of Davinci Resolve, which means that, *for the time being* I cannot process videos in 4K. My first monetary goal is to hire a video editor who has the proper equipment to edit 4K videos, but this will only be feasible once I have reached an income level of \$5,000 per month.

Adoptables

“Adoptables” are videos I would really like to film! Anyone who selects an adoptable as their custom video, or as part of a multi-custom-video order, gets 25% off the whole purchase. So if we negotiate 3 videos as part of your custom video order, and one of those videos is an adoptable from this list, you get 25% off the entire purchase.
