DeevoDaGenius handled the production and visual direction, taking on a hands-on role in the release.

“DOGZILLA” arrives during a busy period for BoriRock, who have continued releasing music throughout 2026. His recent solo projects include *SUPREME ZINGER*, released in February, and *ZING WARS*, which followed in April. In August, he teamed up with Dun Dealy for *ZINGSTITUTIONALIZED*, a 10-track project featuring production from Tremendiss, Vinyl Villain, GRiMM Doza, John Scino and Michaelangelo.

His latest solo release, *ON*, arrived October 28th. The eight-track project features appearances from AA Rashid, Liym Capitol, Erg One, al.divino, InfamusGod, Papo2004 and RoyalOne777. Its production credits include BoneWeso, DeevoDaGenius, Karbine, Grimm Doza and Subjxct 5. The album also includes “ZING MATRIX,” which features The Hidden Character.

Although the artists have identified “DOGZILLA” as the first single from ‘*YINTOPIA*,’ they have yet to announce a release date, tracklist or additional contributors. For now, the single offers the first indication of what the three have been building together.
