5-7 seconds loop - 400\$

- +100\$ per character;
- +50\$ per angle;
- **Sound** - depending on the cost of the SFX designer's work;

If you are a business and you want to order animation with your product, you must provide me with a 3D model with rig ready for animation. Since such animation is an advertisement of your business in my profile - the price is corresponding.

Commissioned animations are not private!

WARNING: I DON'T MAKE LONG ANIMATIONS!

You can see my skill level on my **Twitter** and **Patreon**.

My Discord ID: **dazai_vchan**

By ordering a poster or animation, **you agree** that there will be **no complaints**.

I take a 100% upfront payment. You get your commission anyway, but if for any reason you don't like the poster/animation **after you approve** the final pre-render, **I will not refund your money** for the work I did!

You only have **5 corrections** available to you during the poster/animation creation process! If you exceed the limit - **for each correction I'll charge extra pay** to the total cost. If suddenly it happens that you approved the final pre-render, the animation is already in the rendering, and you suddenly want to change something - I can do the rendering again, BUT! **For the re-rendering you will have to pay half the cost of the animation**. Or we can leave it as it is. I spend a lot of time, effort and resources on each commission, so I ask for your understanding. Do not forget that after you there are people who are also waiting for their animation. The choice is **yours!** :)
