Community Forum: Exploring the Future of JHU Security
SGA-Hosted Livestream Watch Event
Communal Notes

***NOTE**: We hope this document can serve as a communal platform for each of our student groups to take notes on the forum, that way we can see what common questions, comments and concerns we have. In order to raise our student body's voice to the University, it is SGA's hope to **anonymously** synthesize the notes from this document and relay our questions and concerns to those who can most influence the school's public safety policymaking process. If you wish a comment you or your group make to **not** be anonymous, please indicate so clearly in your notes (otherwise our default assumption will be anonymity).*

You can find your pages in the following order:

1. **SGA**
2. **SAPP**
3. **BSU**
4. **SARU**
5. **ADA**

If you have a question you would like to ask at the livestream, please ask an SGA member to type it into the computer that is connected to the screen.
