feedback thank you

This document, titled "AI COAST PILOTS 1," by Alan Phillips, serves as a quick-reference guide for U.S. Coast Pilots volumes, providing navigational segmkments and links to various Artificial Intelligence (AI), mapping, and weather resources. General resources are available for an AI GPT Specialized Navigator via this AI GPT link, for AI Seasonal information through a Google AI SAILING search, for Google Maps, and for NOAA National Weather Service.

Further information is available at www.marinersbase, and the document includes a generic placeholder for Marinas information for most segments.

The segments covered are:

- CP 1 (Link) covers the area FROM EASTPORT ME TO CAPE COD. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the route, and NWS for weather.
- CP 2 (Link) covers the area FROM CAPE COD TO SANDY HOOK. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the route, and NWS for weather.
- CP 3 (Link) covers the area FROM SANDY HOOK TO CAPE HENRY. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the route, and NWS for weather.
- CP 4 (Link) covers the area FROM CAPE HENRY TO KEY WEST FL. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the route, and NWS for weather.
- CP 5 (Link) covers the GULF COAST. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the region, and NWS for weather.
- CP 5 (Link) also covers PUERTO RICO. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, NWS for weather, and a dedicated MARINAS search link.
- CP 5 (Link) also covers the VIRGIN ISLANDS. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the region, and NWS for weather.
- CP 6 (Link) covers the GREAT LAKES WATERWAYS. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the region, and NWS for weather.
- CP 7 (Link) covers the area FROM SAN DIEGO TO SAN FRANCISCO. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the route, and NWS for weather.
- CP 8 (Link) covers the area FROM ALASKA TO CAPE SPENCER. Related AI planning is linked via AI GPT PLANNING. Weather and passage information links include a FORECAST search, MAPS for the region, and NWS for weather.
