In a Venus Dasha

10th lord Jupiter in Leo in 6th -- strength of this? Career dignity

Arts planets... Venus (in Venus Dasha) in Kendra, 4th, ruled by Mercury Virgo, can have success related to arts

Mercury / Mars, Jupiter / Ketu related careers not strong unless take remedial measures

So take remedial measures for Jupiter (rules 10th and Ascendant), and Saturn(?) bc aspects 10th?

10th lord in 6th: <https://www.youtube.com/watch?v=1poq9qdlmWl>

Work environment depends upon intelligence gained in the streets, learning from the enemy and using that in work -- natural advisor, teacher or trainer at work.

Saturn in 4th: <https://www.youtube.com/watch?v=QxON0hhgWiM>

4th house - working from own space, privacy -- saturn, sacrifice -- peace of mind only when fully immersed in work, when follow orders with utmost sincerity -- mostly do work compared to business tho can do side business -- must follow regime / routine to not break commitment to service -- later in life person finds peace in workspace -- have to constantly work and deal with the pressure will wonder "where will I find happiness", but must just continue to work to eventually find happiness, the karma is they just have to work first and take on orders and fulfill orders. Bc Saturn aspects 6th service, 10th of work / reputation, and ascendant/self. Bc 7th aspect of saturn is on 10th, will get bosses who ask more of me than anybody else at work, and they may not give me the same value / payment...whatever hurdles, rivals I deal with, they all get suppressed... early on will face rivals, competition and will lose. Must cross age 32 to start winning things bc till then Saturn dulls down intelligence in how to deal with these obstacles. On plus side, person finds their seat of power through the help of the public / masses - position for gov't / politics.

Don't complain about the karma, you'll become frustrated and will delay your work -- eventually you'll find success if you just keep doing what you're doing.

With Saturn in Gemini, and sitting with Venus and Sun, tendency to be a wanderer, to break laws, tend to be arrogant. They lack skills, grace, politeness, and morality.

Saturn in Gemini makes the person narrow-minded too. This placement of **Saturn** also gives the native interest in chemical and mechanical sciences. Such people are quite systematic and logical in their approach. They have exceptional reasoning ability.

Saturn in Gemini according to Saravali: If Saturn occupies Gemini, one will contract debts and imprisonments, will toil, will have vanity in disposition will consecrate by hymns and prayers, be bereft of virtues, be always in hide-out, be libidinous, cunning, wicked and fond of wandering and of sports.

They rule 6th, 8th, 10th houses

Due to own ego, burn relationships. Need to wait to marry (to form relats in general) - wait for these planets to calm and mature. Early relats frustrate / dry self out, not compatible. After 28 - 32, aggressive curve peaks then goes down. Heat of sun gets cooler, dryness of Saturn gets cooler/softer. Start to feel "finally found right person". Like being around old mature wise people. (at work). Also, you yourself will try to be like that old wise person. In mid 30s, finally calms down. Venus still active, Sun and Saturn chilled out.

Shine with creative talents. When working machine (saturn) behind creativity, willing to work hard and far creatively. Conservative relationship w/ father, whereas other siblings had more cordial relat. Bosses manage me like a child.
