OTHER SUPER INFORMATIVE LINKS	Public subsidies, TFP and Efficiency: A tale of complex relationships	Dipartimento di Scienze Statistiche "P	http://ideas.repec.org/p/sta/	The main findings from the case study are twofold. First, capital subsidies positively affect TFP growth in the medium-long term and not in the short term. The main reason is that allocative efficiency has a positive effect only after 2-3 years. Second, the positive impact comes especially through technical progress and not through scale impact change, as may have been expected.
