

Buff Portal Showcase

Amara Filochowski, Erica Hung, Lukas Voemel, Kyra Moran, Madison Lolicata

Project Overview

- ★ BuffPortal, new and developing platform for students
- ★ Goal: “One stop shop” for CU Boulder students
- ★ Undergraduate Education wanted to implement tutoring into the Buff Portal, partnered with Office of Information Technology
- ★ Students are not aware of all the tutoring resources available to them

Identify

Test

What is Identify?

Define targeted problem spaces you will tackle to focus future research.

How can we improve the user experience in the Buff Portal, especially accessibility to tutoring resources?

First iteration of our “How can we statement?”

Identify

- ★ OIT told us that when a user logs into portal, it knows everything about you (major, financials, in state or out of state, year, international....)
- ★ Came up with assumptions that students might have about tutoring
 - Students don't know about the resources that are available
 - Stigma related to tutoring
 - Don't want to go through the process of finding tutor, inconvenient
- ★ Realized we needed more knowledge...

Assumptions

Tutors are reliable

People don't know about it

Uncertainty with helpfulness

Time management/availability

Big hassle to meet with tutor

Look for tutoring when struggling (not before that usually)

Tutoring will be helpful

Too many options/ confused by options

How to start the process

Students don't know if tutoring is free or not

Identify

- ★ Created questions to ask tutoring users and tutoring services about the tutoring experience
 - Disclaimer: COVID
 - Not so random sample size (aka our friends)
 - Also random, because we all have different school backgrounds (different majors)
- ★ Used the tutoring webpage to view all of the available services and who can use these services
 - Only access location about tutoring services is **one** website

Immerse

Research and Interviews

Identify
Immerse
Reframe
Ideate
Build
Test

What is Immerse?

Gather data from
research and further
understand

Immerse

- ★ Asked students about their knowledge on tutoring
- ★ The following are found commonalities:
 - Only seek tutor if struggling in class
 - Word of mouth
 - Prefer TA's
 - Tutors didn't always know answer
 - Didn't know services were always free
- ★ Based on the answers of users we decided on which tutoring services to interview
- ★ Wanted to meet with services that covered a wide spectrum of student types (different schools/majors, on-campus/off-campus)

Immerse

ASAP Tutoring

- Specific to first year and students living on campus
- Long term mentor approach
- Penji to sign up for tutoring

BOLD Center

- Only open to students in the College of Engineering and Applied Sciences and TAM majors
- Use is required for BOLD Scholars
- Calendly to sign up for tutoring

Writing Center

- Available to everyone and is also recommended for writing courses
- Resumes, cover letters, lab reports, essays, etc.
- Mywconline to sign up

Reframe

Identify

What is Reframe?

Development of design goals and defining success in the future

How can we use the structure of BuffPortal to promote **personalized** and **free tutoring information** to students so that **students are encouraged to take advantage** of these resources?

Second iteration of our “How can we statement?”

Design Concerns of Current Platform

- ★ Website is overwhelming
- ★ Ease of finding tutoring services and their missions
- ★ Multiple scheduling systems
 - Cohesiveness
- ★ Lacks clarity of what services are Free vs Paid

Design Goals for Buff Portal

- ★ Personalized
- ★ Reduce stigma around tutoring
 - Encouraging
 - Seek help earlier than later
- ★ Easy to find
- ★ Easy access to scheduling
- ★ Only promote free services
- ★ All-in-one information location
- ★ Educate students about tutoring options
- ★ Information about TA vs. Tutors

Design Goals for Buff Portal

- ★ Personalized
- ★ Reduce stigma around tutoring
 - Encouraging
 - Seek help earlier than later
- ★ Easy to find
- ★ Easy access to scheduling
- ★ Only promote free services
- ★ All-in-one information location
- ★ Educate students about tutoring options
- ★ Information about TA vs. Tutors

Tutoring Resources

Recommended for all students:

[The Writing Center](#)

Recommended for on campus students:

[ASAP Tutoring](#)

Recommended for Calculus 1:

[Mathematics Academic Resource Center \(MARC\)](#)

Recommended for Physics 1:

[BOLD Center](#)

More Resources:

<https://www.colorado.edu/office-undergraduate-education/programs/cu-boulder-tutoring>

Student-Specific Card located in **Classes**

Only includes tutoring services based off the following qualifications:

- Student Demographics Data
- Semester Courses

Displays how the services are:

- Free
- Specific to some courses

Section at the bottom following the FAQ layout of Buffportal

The screenshot shows a dark grey header with the text "Academic Resources" and "Free Eligibility" in white. Below the header is a list of four items, each in a white box with a light grey border. The first item is "The Writing Center" with a right-pointing chevron. The second item is "ASAP Tutoring" with "Related Courses: ECON1001" below it and a right-pointing chevron. The third item is "BOLD Center" with "Related Courses: PHYS 2011, CSCI 2320" below it and a right-pointing chevron. The fourth item is "Tutoring Services Basics" with a downward-pointing chevron.

Office of Undergraduate Education Meeting

- Met with Beth Meyers in the Office of Undergraduate Education - 11/09/20
- Tutoring Center vs Academic Resource Center
- Incorporate all academic resources into design
 - Examples: Physics Help Room, MARC (TA help)
- Change language (not just tutoring)
- Business analysis don't have a database that updates information about the Academic Resource Centers in real time
 - Concerns with hard coding information rather than linking out to websites
- Brought up concerns with multiple scheduling services

Next Steps

- Continue project next semester
- Refine prototypes
- User testing
