Destination values that are possible without hacking are marked green.

A pause exit can be done in Cranky's, Snide's, Funky's, and Candy's when A and B buttons are on the screen.

An empty cell in the pause exit column means the game will softlock.

If the DK Isles Squawks text hasn't been cleared yet, an OoB warp will send you to Training Grounds (176).

Leaving the Troff 'n' Scoff room through the portal will always send you to the flashback destination.
