Origami Samurai Hat

To begin, fold your origami paper in half diagonally to form a triangle.

Position the triangle so that the fold (the long side) is on top.

Fold one top corner of the triangle over so that it touches the bottom corner.

Do the same with the other corner.

Fold both of the tips up (fold at the dotted line pictured on the left), so that they go to the top.

Fold each of the upward-pointing tips outwards. Fold along the dotted line pictured on the left.

There are now two large triangles on the bottom. Fold the uppermost triangle most of the way up over the top half of the hat.

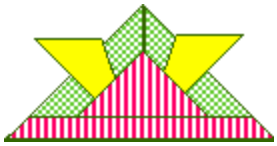

Fold the remaining strip of the triangle up and over the top part of the hat.

Fold the other large triangle up and into the hat.

	Decorate your hat with crayons or markers.
