Slide 1

You find yourself in the middle of a bunch of trees and plants. Your time machine seems to be in good shape and once the solar batteries recharge you should be able to get home. For now you're stuck. You decide you might as well try to figure out where you actually landed. One direction seems as good as any other so you decide to just go forward.

Slide 2

As you pass through the trees you feel the swampy weather on your skin. You feel some slight cuts from the branches on your arms but you keep going. Eventually the trees open up and you find yourself staring at an incredible structure.

Complete question/line 1 here.

Beyond the structure there is just more trees. Guess we'll keep going forward.

Slide 3

The trees open up again and you find yourself in a clearing in the middle of the jungle. The trees here appeared to have been crushed. It looks like there may have been some sort of battle here or maybe a fire of some kind.

Complete question/line 2

As you are walking through you feel something soft under your feet. You look down.

Slide 4

At your feet in the mess of trees and rubble you find a map that seems to show temples and cities in the area. You decide to follow it to the next destination.

Slide 5

Following the map leads to a clearing a pyramid temple. While this is definitely cool you are much more interested in finding out what the skull on the map represents. You decide to walk around the temple.

Slide 6

On one side you see a huge, rectangular carving. It appears to have some pictures carved into it so you decide to take a closer look.

Slide 7

The pictures are incredibly detailed carvings. Each one looks different but you can't figure out what exactly what they represent.

Complete question/line 3 here.

Slide 8

You step back from the carvings and continue on around to the back of the temple.

Slide 9

As you continue to search behind the temple a feeling of dread overcomes you as you stumble upon a pile of skeletons. The skulls appeared shattered as if they were crushed or stabbed through by some kind of weapon. The bodies are stacked closely together and don't appear to have been given much thought. One of the skeletons is much smaller than the others – you conclude this was likely a child. The skull of this skeleton is shattered just the others. Looking closely you see a mostly intact piece of a jawbone. You pick it up and take a closer look. You wonder how many more skeletons might be buried here but you dare not start to dig. As you look over the scene you notice a piece of pottery buried in the dirt as well.

Complete line/question 4.

Slide 10

Near the skeletons down in the dirt you find something much less horrifying.

Complete question/line 5.

This stunning piece of art shakes you out of the fear and dread and reminds you of the huge temple you saw in the distance beyond the pyramid. You decide to move on and check it out.

Slide 11

You find yourself in a brightly painted market. It actually looks like it is still being built – but no people are around. It is eerily silent. That feeling of dread returns. You know you have to get back to your time machine soon but if you leave now you won't have learned anything, fractures, etc. so you press on. You decide to climb the temple and see what it houses inside.

Complete question/line 6.

Slide 12

The entrance to the temple is ominous. The setting sun has cast some foreboding shadows but you can't stop now.

Slide 13

The last rays of sun cast just enough light for you to see inside the chamber of the temple. You are happy to have seen this glorious structure. You are now confident that you know where you have landed. You make your way back through the jungle to your time machine. Set the controls to HOME and return ready to give your report.
