Crisis Stabilization Unit (CSU) Integration Self-Assessment Tool: Medical, Psychiatric, and Medications for Addiction Treatment (MAT) Services

PROVIDER AMBASSADOR PROGRAM

UPDATED MAY 2025

Provider Ambassador Program

CSU Integration Self-Assessment Tool: Medical, Psychiatric, and MAT Services

This self-assessment tool is designed to help agencies evaluate their current level of integration of medical, psychiatric, and medications for addiction treatment (MAT) within their Crisis Stabilization Unit (CSU) programming. Use this tool to identify strengths, gaps, and opportunities for alignment with CSU expectations.

Instructions: Review each statement below and rate your program's current level of implementation. Use the following scale:

- 1 = Not Yet Implemented
- 2 = Partially Implemented
- 3 = Fully Implemented

Integration Area	Expectations	Rating (1-3)	Evidence/Notes	Action Item(s) & Responsible Parties
<i>Screening for Medical, Psychiatric, and MAT needs</i>	Screening occurs at the time of first contact, and same-day access to care (especially MAT) is available.			

Provider Ambassador Program

Integration Area	Expectations	Rating (1-3)	Evidence/Notes	Action Item(s) & Responsible Parties
<i>Screening Tools</i>	Agency is using evidence-based screening tools.			
<i>Medical Assessment Access</i>	Individuals receive timely physical exams within 24 hours of admission and as clinically indicated.			
<i>Ongoing Medical Monitoring</i>	Medical needs, including ongoing monitoring and management of psychiatric, intoxication, and/or withdrawal symptoms, are regularly addressed throughout the stay, with

Additional Considerations	
Question	Notes
Are formal screening processes in place for all individuals at the time of intake that result in timely referrals?	
Do you currently have protocols for monitoring and managing intoxication, withdrawal, and/or psychiatric emergencies, including a process to elevate concerns to the medical personnel?	
Are all personnel able to identify, monitor, and respond to medical and mental health symptoms throughout the day?	
Is medication management of psychiatric medications and MAT incorporated into the program instead of treated as separate or optional?	
Do you currently have a process to initiate medications for addiction treatment, either directly or through a detailed care coordination agreement? How do you provide access to:
