

CALPADS College Credit Courses: SIS Data Entry Quick Guide

College Credit / Dual Credit • EOY 1 Course Completion

Academic State Course Codes	CTE College Credit	Instructional Level	CCI / Reporting Rule
9020 - Visual Arts 9082 - Dance 9096 - Theatre 9120 - English 9154 - World Languages 9200 - History/SS 9227 - Other 9273 - Math 9303 - Music 9358 - Science	If the college-credit course is CTE, use the appropriate CTE State Course Code (7000–8999), not an academic college-credit code.	CALPADS 9.19 23 = College Credit Only 24 = Dual Credit (HS + college credit)	The course must be LEA/school-associated and college credit actually earned. CCI: C- or better (or Pass). Prepared via College Credit = 2 semesters / 3 quarters / 3 trimesters. PE does not count.

INFINITE CAMPUS

Scheduling & Courses → Courses → Course Information / Section Information

1. Set State Code to the correct academic college-credit code above or, for CTE college credit, the appropriate 7000–8999 CTE code.
2. Under State Defined, set Academic Level 2 = 23 College Credit Only or 24 Dual Credit. If a state field is populated at Section Information, it can override the course-level value.
3. Ensure the completed course is represented in the student's course/transcript data with the correct term and final grade; the student must actually earn college credit.
4. Run CALPADS Course Section and Student Course Section extracts and confirm State Course Code + 9.19 before EOY 1 certification.

AERIES

Courses (CRS) + Student Transcript (HIS)

1. Set Course Level (CRS.CL) = 23 College Credit Only or 24 Dual Credit as appropriate, and map the codes in CALPADS Code Translations (XRF).
2. Academic: use the appropriate college-credit State Course Code. For a mixed dual-credit section, CRS.CC3 can override CRS.C3 for qualifying students. CTE: use CRS.C3 = 7000–8999 and leave CRS.CC3 blank.
3. On HIS, enter the college as School Taken (HIS.ST), year/term/course/mark, plus Dual Enrollment Credit School (HIS.SDE) and College Credit Hours (HIS.CH > 0). HIS.SDE + HIS.CH are required triggers.
4. Run EOY CRSC/SCSC and confirm the virtualized college course reports the intended State Course Code and 9.19 = 23 or 24.

SCHOOL PATHWAYS

Admin → Transcripts → Master Course List / Course Catalog

1. Academic college credit: create/support a “CC” course using the appropriate academic college-credit State Course Code; School Pathways recommends aliases for specific community college course titles.
2. CTE college credit: use the applicable 7000–8999 CTE State Course Code and set Non-Std Instructional Level to “College Credit”; complete the applicable CTE fields.
3. Ensure the student is actively enrolled while taking the course and that the course/grade flows through the regular school-year reporting workflow.
4. Review the generated EOY course files and confirm State Course Code, CALPADS 9.19 (23/24), academic term, and final grade before certification.

Q AEQUITAS

Use your district's configured Q CALPADS / college-credit workflow

1. Assign the correct academic college-credit State Course Code, or the appropriate 7000–8999 code for a CTE college-credit course.
2. Set Course Section Instructional Level to 23 College Credit Only or 24 Dual Credit according to how credit is awarded.
3. Ensure the completed course, academic term, final grade, and actual college-credit award are represented in the EOY course-completion data.
4. Generate Q CRSC/SCSC output and verify State Course Code and CALPADS 9.19 before upload.

Note: Public Q Aequitas documentation does not expose a field-by-field college-credit screen crosswalk; exact local field labels/configuration must be verified in Q.

REPORTING CHECK: Active LEA college-credit courses report in Fall 2 CRSE/SCSE. Completed courses used for CCI must be in EOY 1 CRSC/SCSC. Verify State Course Code, 9.19 = 23/24, term, final grade, and that college credit was actually earned.

Important: Starting with the 2027 Dashboard, State Course Code 9227 (College Credit Course - Other) will no longer count toward the CCI College Credit measure, regardless of when the course was taken.
