

Class Cancellations and Interruptions: Class may be canceled for several reasons, and the instructor will make every effort to notify students of class cancellations as far in advance as possible. Since this class has synchronous, and asynchronous elements to it, class may be canceled for a wider range of reasons than anticipated.

- In the event that the campus is closed, but online classes are held, **our class is canceled**
- In the event that online classes and services are canceled, but the campus is open, **our class is canceled**
- In case of campus, college, or system wide internet outage during a class meeting, students participating live on Zoom should take the following steps:
 1. **Verify that the problem is not your own internet connection.** It is an expectation in HyFlex classes that students who choose to attend class on Zoom or asynchronously will have the internet bandwidth and a stable internet connection to support that choice.
 2. Then wait 10 minutes for me to rejoin. If I am unable to rejoin the class in 10 minutes, assume **our class is canceled** or ended class early because of the internet outage.
 3. Also, in case of repeated, short outages, we will keep trying to get through class 5 times. If the internet drops a fifth time, assume **our class is canceled** or ended class early because of the internet outage.
