A vintage computer monitor with a dark wooden frame. The screen is white and displays a message. The word 'Updates' is at the top in a large, bold, serif font. Below it are four large question marks '????' in the same font. At the bottom, the text 'None, so far...' is displayed in a smaller, regular serif font. The monitor is set against a dark background, and a portion of a control panel with several knobs and buttons is visible on the right side.
