Dear Parents,

- Consistently complete homework assignments and clearly show all work.
- Solve math problems using detailed explanations, visual drawings, or diagrams.
- Use calculators thoughtfully as a tool to check solutions and support problem-solving.
    - Utilize the Desmos digital calculator for interactive practice.

- Thoroughly complete provided study guides before upcoming assessments.
- Engage regularly with assigned learning platforms (such as Magma Math, Delta Math, Zearn, or Khan Academy) for weekly skill reinforcement.
- Discuss and reason through mathematical concepts aloud together.
- Ask them to explain or teach you a concept using a problem reviewed in class.
