Top Tips for E-Biking

1. Wear a helmet – Protect yourself by always wearing a helmet. Safety first!
2. Stick to bike paths – Use designated paths for a safer ride away from traffic.
3. Avoid mountain trails – E-bikes aren't built for rugged terrains; stay on smooth routes.
4. Stay alert – Watch out for pedestrians, dogs, and cars; always yield when needed.
5. Follow road rules – Obey traffic signals, use hand signals, and ride in the correct lane.
6. Know your brakes – Practice stopping properly; e-bikes are heavier and faster.
7. No phones while riding – Keep your focus on the road; stop if you need to check your phone.
