

## **TOS - Algol's commissions.**

- 1- Make sure credit is visible when sharing art by me (my Toyhouse User is @ Algol)
- 2- I will begin working on a commission once I have been paid by the client.
- 3- I will update the client frequently as I work on a commission piece. The client is free to redline a drawing while I am working on it! Afterwards, I am willing to make only minor changes to an already completed artwork.
- 4- You cannot chargeback me without getting my approval. If you would like to cancel a commission, please discuss it with me beforehand.
- 5- I take payments upfront and do not currently do payment plans. Unless specified, I only accept PayPal transactions.
- 6- Do not edit my art without my approval (this includes removing watermarks)
- 7- If a client attempts to augment or alter any of my artwork using AI, even if it is a paid commission, the client will be blacklisted and other artists will be made aware.
- 8- My artwork is to never be "minted" for NFTs or used in any relation to blockchain technology.
- 9- Commercial use is prohibited without a license and contract for use.
- 10- Do not copy, trace, or reference my art.
- 11- If someone has repeatedly broken my TOS or has broken it in an extreme case then they will be blacklisted.
- 12- By commissioning me you are automatically agreeing to my TOS

This TOS applies to any and all commissions bought after 24/05/2022
