

## ReawakeR (英語訳)

Lyrics by Benjamin + cAnON.

Like an obsolete force  
Rotten to the core deeper one by one  
But I have reawakened for revenge  
Even against this foolish rule

They chew up and spit you out  
Statue will leave a body count  
The craving and impatience of a greenhorn  
Portrait of that day blurred in the dark  
I give back the light  
It gimme what I please  
Like the Ring of Gyges

Cuz I'm back in this game  
So let's go  
More than given scenario  
Cuz I'm back in this game  
We can survive  
Struggled and sharpened my Hunter's pride

The pain inside us  
Should never go away  
Silence with distractions  
The fuse can't be connected

Gonna trap it  
Uh uh  
Gonna trap it  
Gonna stack it up yeah  
I'm a tap it  
Gonna trap it  
Uh uh  
Gonna trap it  
Gonna stack it up yeah  
I'm a tap it

f-song2023-4#2

Cuz I gotta bring ya back to the fold  
On the money, I be crackin' the code  
But I better get a grip  
If I slip  
If I trip  
If I drop in the hole in the road...  
But they never give a doggy a bone  
It's unlockable, a crown or a throne  
But the gladiator's back  
Gonna mount the attack  
With my shadowy army in tow

They chew up and spit you out  
Statue will leave a body count  
The craving and impatience of a greenhorn  
Portrait of that day blurred in the dark  
Have more power than I can handle  
Hold the ring of Gyges up to the abyss

Cuz I'm back in this game  
So let's go  
Arise  
Chant it calmly with the afterimage of the wound  
Cuz I'm back in this game  
We can survive  
Broke off and get a glimpse of Ranker's high

The pain inside us	Gonna trap it
Should never go away	Uh uh
Inevitably Speechless	Gonna trap it
The end of crumbling down	Gonna stack it up yeah
	I'm a tap it
	Gonna trap it
	Uh uh
	Gonna trap it
	Gonna stack it up yeah
	I'm a tap it

Survive or break this system  
As Two sides of the same coin  
Life is up to us  
Cuz I'm back in this game  
I'm so alive  
Keep drawing the aspirations to Top of the world

Cuz I'm back in this game  
So let's go  
More than given scenario  
Cuz I'm back in this game  
We can survive  
Struggled and sharpened my Hunter's pride

The pain inside us  
Should never go away  
Silence with distractions  
The fuse can't be connected

Trillion and one G  
On a bungee  
All stan  
Swelling, my crescendo  
See a window  
My miraculous story began  
Provin' it to Plato  
That I won't go shallow  
Gonna be a player  
Super slayer  
Just a cog in a plan?
