

2025-2026 Hampden Elementary School Parent & Family Engagement Policy

At Hampden Elementary we are committed to fostering meaningful parent and family engagement to support student success. Our staff will enhance parent and family involvement through the following means:

1. Invite families to meet with the classroom teacher and/or Title I teacher to discuss their child's progress.
2. Offer flexible scheduling options for parents and families for meetings.
3. Maintain open and regular communication with families regarding their child's progress, strengths, and areas of need.
4. Provide written progress reports to families at the end of each trimester, detailing their child's academic progress.
5. Keep accurate and up-to-date records, ensuring all information is accessible to families as needed.
6. Collect feedback from families annually for reflection on the overall function of the engagement policy.
7. Organize school-wide events that encourage family participation, such as family nights, cultural celebrations, and more, to build a strong school community.
8. Provide available resources such as a weekend food program, small group counseling, translation services, as well as connecting families to outside agencies for further resources.
