

Abstract format to ESPCA-QM submission

First Author^{1,2}, Second Author², Third Author^{1,2}, Fourth Author³, Fifth Author⁴

¹First Institution, ²Second Institution, ³Third Institution, ⁴Fourth Institution

e-mail:username@domain

This is a template for the São Paulo Advanced School on Quantum Materials abstract. Please read carefully and follow the instructions along this text. Do not use capital letters for the title or authors' names and affiliations. Affiliations should follow in a single row (only the name of the institution, without address), before the email address. Equations should be inserted within the text containing the abstract body. Acknowledgements should be placed after the text, using a different paragraph. References along the text must be indexed using brackets [1], up to a maximum of 3; the list of cited papers must be included in a different section at the end of the abstract text, under the caption 'References:'. Do not leave blank lines between the abstract, acknowledgments and references. Please see example below for the correct format. This document should not exceed one page.

Acknowledgements:

Agencies, people who discussed the results, etc
