A. LATAR BELAKANG

This document is a template. An electronic copy that can be downloaded from the website http://journal.ummat.ac.id/index.php/fkip. The easiest way to fulfill the requirements for writing format is to use this document as a template. Then type your text into it.

The paper size must match the A4 page size, which is 210mm wide (8.27 ") and 297mm long (11.69") with the margin set as follows:

Top = 3 cm
Bottom = 2.5 cm
Left = 2.5 cm
Right = 2.5 cm

Writing articles must be in a one-column format, at least 5 pages.

The paragraph must be organized. All paragraphs must be flat, which are both left and right and even.

Sel All documents must be in Cambria, font 11 for content and 11 for sub, space 1.15. Other font types can be used if needed for special purposes.

All references or references in paragraphs use the APA style. For example: The development of education in this era of globalization has experienced a lot of shifts in the values of goodness replaced with characteristics that are less good, especially at the upper middle level (Syaharuddin, 2018: 12).

B. METODE

Titles and authors must be in a single column format and must be centered. Each initial word in the title must be uppercase, except for short words such as, "a", "and", "in", "by", "for", "from", "on", "or", and the like. Writing the author may not indicate the name of the position (for example a Supervisor), academic degree (eg Prof, Dr, M.Pd, M.Sc, M.Sc, etc.) or membership of each organization.

Every affiliate must be included, at least, the name of the institution or company and the name of the country where the author is (for example, Education and Information Centre od NTB, Indonesia). The email address is required for the author in question.

Charts and tables must be centered. Large charts and tables can be stretched in both columns. Each table or image that includes a width of more than 1 column must be positioned at the top or at the bottom of the page.

Graphs are allowed to be colored. Images may not use dots because there is a possibility that they cannot be printed in the original. Use solid coloring that contrasts well with high resolution for display on a computer screen, as well as for prints that are black and white.

C. HASIL DAN PEMBAHASAN

1. Sub Title

Please check all the images in your journal, both on screen and in the printed version. When checking printed versions of images, make sure that:

color has sufficient contrast,

the picture is quite clear,

all labels on the image can be read.

Images are numbered using Arabic numerals. The caption must be in an ordinary font size of 10 pt.

2. Sub Title

a. Sub Title

The table name is placed in the middle, with the table title of 11 pt, and the contents of the 11 pt table, space 1.

Table 1. Font Size For Articles

No	Name	Class	Total
1	Aiman	XI.A	12
2	Musthafa	XI.B	23

Tables are numbered using Arabic numerals. Description of the table in the center (centered) and in ordinary fonts measuring 11 pt with small capital letters.

Sequential equations are followed by numbering numbers in parentheses with right flat margin, as in (1). Use the equation editor to make the equation. Space tab and write the equation number in parentheses. If the equation is long (many variables) to be more tight, use the slash (/), the function of the rank, or the right rank. Use parentheses to avoid confusion in giving fraction numbers. Describe the equation when in a part of a sentence, like the following.

$$\overline{X} = \frac{\sum x_i f_i}{n} \quad (1)$$

Make sure that the symbols in the equation have been defined before the equation or immediately follow after the equation appears. The symbol is typed in italics.

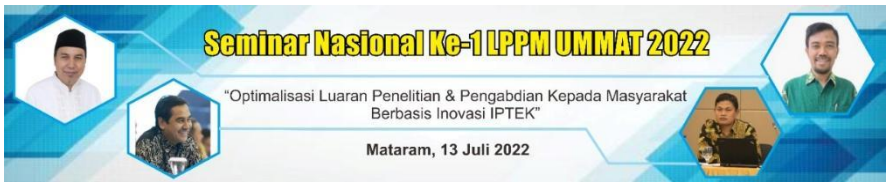

Figure 2. Examples of Images with Good Resolution

D. SIMPULAN DAN SARAN

In this section the author details the conclusions of the results of the discussion and data analysis and is advised to submit further research to the next researcher.

UCAPAN TERIMA KASIH

The title for the thank you to the institution or the person who has contributed during the research and references is not numbered.

REFERENSI

- Ditulis dengan font 11, spasi 1
- Minimal 10 rujukan, terbitan 10 tahun terakhir (2011-2022)
- Diwajibkan menggunakan software Mendeley, pilih APA style
