The Magician's Elephant by Kate DiCamillo

Cause and Effect Model

WALT: link a variety of actions with events and impacts

I will know if I have achieved this if I: link relevant actions with events in the text link relevant impacts with events in the text

actions	events	impacts
	Peter's Father died	
	Peter spends the money at the fortune teller	
	An elephant fell through the roof of an Opera House.	
	Vilna Lutz lied to Peter about his sister being dead.	
	Peter goes to see the elephant.
