ABOUT

Creative fashion professional with over four years of modeling and runway experience, combining expertise in creative direction, styling, brand coordination, and fashion production. After modeling for Suspex for three years, I joined the team full time and have spent the past year working directly alongside the founder of the independent fashion brand. As part of a two person team, I contribute across every aspect of the business, including creative direction, styling, campaign production, model casting, brand coordination, content creation, and continuing to represent the brand as a model. Passionate about bringing creative concepts to life, I thrive both in front of the camera and behind the scenes.
