Study the numbers in this table so that you know the answer to any addition problem up to  $10 + 10$  and the answer to any subtraction problem up to  $20 - 10$ .

Learn to see the relationships between numbers; for example, the numbers 7 and 9.  
For addition,  $7 + 9 = 16$ , and  $9 + 7 = 16$ . For subtraction,  $16 - 7 = 9$ , and  $16 - 9 = 7$ .

Memorize the addition problems (up to  $10 + 10$ ) and the subtraction problems (up to  $20 - 10$ ) covered by the numbers in this table.

Make flashcards to study any problems that you find it difficult to memorize.
