
Sedgwick Library 3D Print Application

Name:

Date:

The library has a Makerbot Mini+ and it can print up to 4" by 5". Make sure your project will fit by reading the description.

1. Visit **Thingiverse** for inspiration and free files. <http://www.thingiverse.com> or make your own thing at TinkerCad.

2. Describe what you would like to print on the library's 3D Makerbot printer:

3. Why should we let you print it? Use complete sentences, please.

4. Email a file or link to the file to shannon_mcneice@whps.org

- a. From Thingiverse, "Download", then OPEN and "Extract" the folder/file.
 - b. "Compose" a new email to Mrs. McNeice
 - c. Attach the .stl file (From the Files Folder) using the paperclip at the bottom of the email. Find the file folder on a PC in the network drive with your name and attach it. On a Chromebook it's in the Downloads folder.
 - d. What is the filename of the .stl file you emailed to Mrs. McNeice?
-

5. Follow up with Mrs. McNeice to choose a color and set-up a date for the print.

Preference will be given to projects that solve problems!
