Privacy Policy

Gorozet offers the Warmup Window mobile application at no cost and provides access to it on an “as is” and “as available” basis. This Privacy Policy explains how information may be collected, obtained, handled, processed, used, stored, preserved, and protected when you download, install, access, or otherwise interact with the application. By accessing or continuing to use Warmup Window , you acknowledge that you have read and understood this Privacy Policy and accept the practices outlined herein.

Information obtained through the application is used exclusively in connection with the delivery, operation, maintenance, support, enhancement, and continued development of the Service. We do not sell, lease, exchange, transfer, or otherwise disclose personal information to third parties, unless such disclosure is permitted by this Privacy Policy or required under applicable laws, regulations, court decisions, legal proceedings, or other legally binding requirements. Unless explicitly defined otherwise, capitalized terms used in this Privacy Policy carry the meanings assigned to them in the Terms and Conditions governing the Service.

Collection and Processing of Information

Certain functions available within the application may require information that could be capable of identifying an individual. Any information voluntarily provided by users may be collected, stored, processed, and used in accordance with this Privacy Policy.

The application may additionally incorporate third-party software, technologies, products, or services that collect and process certain information independently. Such third-party components may include, but are not limited to:

- Google Play Services

Technical and Diagnostic Information

If the application experiences a crash, malfunction, error, interruption, performance problem, or another technical difficulty, diagnostic information relating to the incident may be generated automatically through analytics platforms, monitoring systems, crash-reporting tools, or comparable technologies.

Such information may consist of IP addresses, device characteristics, operating system data, application settings, configuration information, timestamps, log data, and other technical details reasonably necessary to examine, diagnose, and resolve technical problems.

Diagnostic information may be processed for legitimate operational purposes, including investigating and fixing technical issues, maintaining availability, increasing stability and performance, evaluating system reliability, and improving the functionality and overall user experience of the Service.

Cookies and Related Technologies

The application does not itself create, store, or manage cookies. However, some third-party services incorporated into Tidal Lanterns may use cookies or equivalent technologies for purposes such as analytics, authentication, security, operational functionality, or other legitimate business activities.

Depending on the device, operating system, or browser, users may be able to adjust, restrict, or disable these technologies through the corresponding settings. Any such restriction or disabling may affect the availability, functionality, or performance of certain features.

Third-Party Service Providers

We may engage trusted companies, organizations, contractors, service providers, and other third-party partners to assist in delivering, operating, maintaining, supporting, administering, and improving the Service. Their responsibilities may include:

- Operating and maintaining the application;
- Carrying out services on our behalf;
- Providing customer and technical support;
- Analyzing application usage and monitoring system performance.

Access to information by these providers is limited to what is reasonably necessary for the performance of their assigned duties. They are expected to protect the confidentiality of the information they receive and are not permitted to use it for purposes unrelated to the services they provide.

Data Security

We apply reasonable administrative, technical, and organizational safeguards intended to protect personal information against unauthorized access, disclosure, alteration, misuse, destruction, accidental loss, and other unlawful processing.

Despite these measures, no electronic communication method or data-storage system can guarantee complete security. Therefore, although appropriate safeguards are maintained, we cannot guarantee that information will be entirely protected from every potential security risk or threat.

External Websites and Services

The application may contain links to, or provide access to, websites, platforms, applications, and other online resources operated by independent third parties. Because these external resources are outside our ownership and control, we are not responsible for their content, privacy policies, security practices, or procedures for handling information.

Users should review the relevant privacy policies and terms of use before accessing or interacting with any third-party website, platform, application, or other service.

Privacy of Children

Tidal Lanterns is not intended for individuals below 13 years of age and was not specifically created for children. We do not knowingly obtain personal information from children.

If we discover that a child has submitted personal information through the application, we will take reasonable steps to delete such information as soon as reasonably practicable. Parents or legal guardians who believe that a child has provided personal information may contact us and request its removal.

Amendments to This Privacy Policy

We may periodically modify, revise, update, replace, or otherwise amend this Privacy Policy at our discretion. Revised versions may be made available through the application or communicated by another appropriate means.

Unless a different effective date is specifically stated, any changes will become effective upon publication. Continued access to or use of the application after an updated version becomes available constitutes acceptance of the revised Privacy Policy.

Effective Date: October 5, 2026
