Hi everyone!

We hope you're enjoying the Kids' Coding Symposium!

All symposiums have a speaker.  While you're finishing your snack, we'd like to introduce our keynote speaker.

Her name is Janet McCarthy and she's a retired computer programmer who has worked for Stanford, Lockheed Martin, and Amdahl.

You might also know Mrs. O'Shea, who is a 5th grade teacher at Iron House.  Well, Janet McCarthy is her mom!

Please be quiet and polite while we listen to Ms. McCarthy.
