

IMPORTANT: Most audios on this list will contain a name at the end. This name will be either the name of the group or @ of the user that uploaded the audio. With some exceptions, **this usually is not the actual creator of the sound/music in question.**

If an audio is uploaded by @Roblox, @APMOfficial, @DistrokidOfficial, @ProSoundEffects, or @ParryGripp, it should work in every game.

However, audios uploaded by @MiniToon, @epic_tank, @rareheaddress, Piggy: Intercity, Team i2R, or others may not work outside of Piggy and the uploader's other respective game(s).

Unless marked otherwise, every audio on this list *should* work in Piggy Build Mode.

Huge thanks to epic_tank, AJFried, WolfPackGaming, and the Piggy Wiki for providing some of these IDs.

Tracks with vocals are marked with **bold text**.
