[Conclusion](#)

[Presentation](#)

[Reflection](#)

The questions that will need to be answered in this webquest are:

1. Which countries speak English as a native language L1?
2. Which countries speak English as an official second language L2?
3. Which countries speak English as a foreign language?
4. Are there countries that have English as the official language but the population preferentially speak another?
5. What are the population mixes for these languages in each country?

Task

Group 1: Find the countries that speak English as a native language

Group 2: Find the countries that speak English as an official second language

Group 3: Find the countries that speak English as a foreign language

Group 4: Find the country or countries that have English as an official language but preferentially speak another language

All groups: Find the mix of population that makes up the percentages in those countries.

Group 1

1. Which countries speak English as a native language L1?
2. What are the population mixes for these languages in each country?

The countries that speak English as a native language are as follows in the table below:

	Country/continent	Percent that speaks English	Population	English as second language
	Australia	97.03%	21,394,309	
	New Zealand	97.82%	4,275,100	
	Canada (North America)	85.63%	33,121,175	
	USA	94.2%	316,823,000	5.8%
	UK	97.74%	64,000,000	
	Ireland	98.37%	4,422,100	
	South Africa			
	Some Caribbean Islands			
	India			
	Some parts of Africa			
	Guyana			
	Belize
