

Intergalactic Core Party

“One System, One Republic, One People”

What are Crest Means to us

The central star is the Core holding noble and strong. The other shaded in the star is the Outer Rim, while the white is the Inner and Mid Rim this shows that one galaxy together with the Core at the head is and always be the way forward. The three columns supporting the stars represent the cornerstones of our great Republic that must always come before partisan politics: Democracy, Honor, and Unity. While the five stars at the top represent the future and what we as a Republic should strive for.

Preamble

In the year 5000, the Galactic Republic faced a threat unlike that of any other: The Treacherous Sith Empire. Desperate and on the verge of total collapse, the citizens of the Perlemian Trade Route rose in arms to protect the valuable core worlds from the dreaded onslaught. Led by Lord-Admiral Yol-Shin, the grand fleets of Anaxes made battle with the Sith, routing their offensive and saving the fledgling Republic from certain doom. As a result, the Anaxes system was given the nickname “The Defenders of the Core-” the very basis for the modern Core Party and the modern Republic itself were founded. The Core Party is the oldest party in galactic history founded by Yol-Shin. The Core Party values and seeks to uphold Democracy, Honor, and Unity as they are the core values of the very Republic it exists in.

Therefore the Core Party seeks to unify and strengthen the Republic. We seek to unite all members of the Republic for the common goal of working for a better Republic and overcoming the differences between its members whether it be Class, Education, Race, or any other divide separating the people of the Republic.

Points of Unity

Democracy: The ICP stands in support of increasing democracy. In that, we reject unrepresentative systems of voting and governance and support direct democracy and consensus-building. We are a democratically governed party and wish that all the planets of the galactic Republic will in time embrace democracy, though we respect those that are not.

Meritocracy: The ICP seeks to abolish the system of arbitrary privilege under which a handful benefit while the many are oppressed. The Party has no tolerance for any discrimination, people must be judged on their individual merits, abilities, and talents. Not judged on wealth, race, or social class.

Strengthening Constitution: The ICP seeks to close loopholes and strengthen the Republic's Judicial and legislative bodies. By doing so create a clear system and allow for disputes between planets to be more easily settled by the Republic and not Jedi.

Interventionism: The ICP seeks to provide support and assistance to corporations particularly those in the core to encourage their growth. The ICP also is in favor of regulations ensuring a more fair economic system for all.

Galaxism: We in the ICP support the merging of the entire galaxy into a new galactic wide culture and a new galactic wide civilization. Together, and only together as a United Galaxy achieve even the fantastic and most outlandish dreams our forefathers had for us and achieve dreams that even they didn't imagine possible. However, we encourage and support every species right to move along with their advancements as they wish.

In Conclusion

The Galactic Republic is the greatest unified governing body in the galaxy and as such the Core wishes to not only maintain that but strengthen, unite, and uphold its values as it is stated in the Party manifesto. The Core party seeks to ensure all people have the freedom to pursue the lives they wish under our great Republic. The greatest dream of the party is that anyone can grow up to be whomever they want to be. That everyone in our Republic can walk safely down the streets love who they want to love, be who they want to be, do what they want to do, and not be persecuted or ostracized for simply being themselves. As Lord-Admiral Yol-Shin once said, “It is the duty of every citizen of the Republic to see injustice, it is their constitutional duty to stand up against it.” and the Core Party stands by those words. Together will you join us in a brighter future?
