

CLMOOC Thematic Postcards

[formerly known as “data postcards”]

A few of us have read [Dear Data, a book about a project that inspired the CLMOOC postcard project](#), and are interested in experimenting with a project where we come up with topics that we explore in real-time and then exchange postcards on. The postcards don't necessarily have to include the kind of detailed data gathering or graphic depictions that *Dear Data* did -- in fact, like all things CLMOOC, you can participate any way you like. (That's the beauty of this -- seeing where our whimsy takes us.)

If you might be interested in trying this out (no commitment implied :), suggest a topic(s) below and/or sign up for one you might want to take part in. We'll follow up via email and on the regular CLMOOC spaces.

Topic	Proposed date	Yes, I'm interested! (include name and optionally your email - also make sure you're already on the CLMOOC postcard list)	Other notes
Doodles	July, 2018		
Postcard to my past or future self		Purviben TrivediZiemba@gmail.com karen
