

kristythepainter Watercolor brushstrokes in the beginner phase can feel super repetitive so here are 5 that I know will change your creative game!!

Kristythepainter How To Actually Get Rid Of Sharp Edges And Unbalanced Proportions In Your Messy Paintings

There is a new way to start sprouting life into your paintings that nobody else is teaching.

This new perspective helped my private students tremendously with their once-cartoony textures...

They started painting with more realism, depth, and detail. Their paintings became TOO realistic!!! As if they took a photo with the best camera in the world and printed it on their canvas!

Their creative brain also started working 24/7 almost like a whole new factory was built for creativity in their brain!

But this “perspective” isn’t only useful for creating more artwork that is worthy to be framed and hung...

It can also help beginners create just as beautiful paintings WITHOUT using Daniel Smith Watercolors...

Whether it’s choosing what colors to mix on your palette,

How to add realistic textures without accidentally blobbing paint on your painting,

Or learning how to become more “confident” with every brush stroke...

This unique brain flip will make everyone BEG on their knees for your next paintings when Christmas rolls around.

So, If you’re tired of having a staring competition with your blank canvas,

Then click the link in bio and sign up for my newsletter to learn about the “Monsoon” style.

And how it could help your technique go from the painting skills of an elementary student, to a professional painter with several 100 million dollar paintings framed in the national art museum.

So sign up as soon as you can for some invaluable watercolor tricks that even a few veteran painters never knew about.

Happy painting!

Fascinations i did for warmup:

1. How to actually paint a lot better like water coloring god without the struggle of technique, color mixing, and self-doubt
2. The secret to becoming as aspirational painter. 5 easy tips.
3. 5 watercolor brushstrokes that every beginner can learn how to do easily
4. 5 brush strokes for every newbie just starting out on their watercolor journey
5. How to actually improve your watercolor paintings without spending a single penny on courses.
6. Here's why 90% of artists suffer from the "creative wall" Plus how you could overcome your own creative wall if you have one.
7. The reason why 97% of watercolor painters lack "depth" in their painting is most likely down to this ONE mistake:
8. The secret to overcoming "the voices" as a painter and how to actually gain compliments and recognition for your artwork.
9. If you're a beginner watercolorist, Then here are 5 ways to instantly improve your painting that you probably haven't heard before (the 3rd way is the most crucial one!)
10. Why you should always post your paintings even IF you think people won't like them.
11. The secret mind "hack" to instantly enter the "flow" state when painting.
12. How to avoid making that "something's not right" feeling after you finish your watercolor painting
13. Why you should ALWAYS be challenging someone when it comes to your painting (not in the way you think you should be challenging)
14. 7 steps to become a top 1% watercolor painter without all the painting "practise"
15. When using this popular brush technique is actually ruining your painting
16. When to use a limited palette when painting plus how to identify the **core** color of every painting
17. Color Theory secrets that the top 3% of experienced watercolorists keep to themselves
18. The easy way to paint peonies that is conveniently more good-looking as well!
19. The quickest and easiest way to improve your painting overnight even if you're a seasoned painter
20. Warning NEVER mix these 2 colors no matter what painting you want to create (Plus the 4 color shades that acts as man's best friend for your canva)
