Past/current experiences working in the field of disabilities:

I have volunteered with Teen Tastic, working with teens with Down syndrome at Gigi's Playhouse. I have also had a clinical fieldwork rotation (12 weeks) in Early Intervention with various kids with developmental delays.

Goals for your LEND training experience:

I want to have a greater foundation of understanding how best to serve individuals with disabilities. I also hope that I gain a better understanding of how to collaborate with an interprofessional team to help us coordinate care best.

What you wish to contribute, in the future, as a professional/family member in the field:

I hope to contribute a holistic lens that occupational therapy provides – bringing in individual's natural contexts, values and skills to help them thrive in their everyday life.
