

Subject line: "Dear X, YouTube might be killing you 🚫"

Dear, X

I saw that you have a website where you sell X. I like How you ...(give them a compliment).

I noticed that your website is a bit outdated and I might be able to help you out with that.

I can help you grow your business and reach your goals as fast as possible.

There are many strategies that I can use to help grow your business.

This process is not very long and you won't have to do much work. I will make sure that you reach your goals and gain more popularity.

I also noticed that you have a lot of competition. I believe I can move you up the charts and increase your traffic.

YouTube's algorithm is not very friendly. It is not allowing your videos to be at the top of the search list, so I can use other strategies to increase your popularity.

I think we should just start off by talking to each other and doing a small project.

Have a nice day!
