

Parent Participation: Module 4

Module 4 tackles the New Testament. Almost every Christian I know is very familiar with the New Testament and the teachings of Paul. However, it is that same familiarity that can cause us to take for granted or dismiss the teachings there. As you approach this section, try to question all of your assumptions and think deeply through what the New Testament might be teaching.

1. Spend time working through Part 4 in “To be a Christian”
 - a. Take time to think about how the Ten Commandments apply today.
2. Spend time talking about these questions:
 - a. Of the gospels, which one do you find yourself going back to time and time again? Which gospel would you say you know the least?
 - b. What NT Letter would you say is your “favorite?”
 - c. How would you describe the story of the New Testament?
 - d. What part of Revelation brings you the most hope/joy when reading it? Why?
