

🦋 RULES 🦋

1. You **MUST** send half of the total amount before I begin working on your commission, and the remainder after I finish the commission. The first half must be paid upfront, but I will give you a week to pay off the remainder after I finish the commission. Failure to do this will get your commission deleted and your money refunded.
2. If you wish to upload your commission, please credit me. If you do not credit me, I will send you a DM as a reminder. At this point, if you do not credit me, I will report your post as theft.
 - a. Furthermore, I will report your post as theft if you upload my commission without paying off the remainder of your total.
3. I reserve the right to decline any commissions if they go against my TOS or if I am made uncomfortable.
4. For larger commissions (Halfbody and up), I will charge \$5 per hour. I use Procreate, which allows me to see how long it took me to create each piece. For example, if you want a shaded half-body with a complex background (\$50), you would pay me half of that upfront. If the art, however, takes me a total of three hours to finish, that is an additional \$15 to your total. \$25 + \$15 = \$40. Please keep this in mind when ordering more detailed commissions.
5. I am only taking one order **PER CUSTOMER**. I do not want the same person commissioning me for five art pieces in a row. One order per person, please.
6. I require references for what you want me to draw. I cannot go off of descriptions. It doesn't need to be a full reference sheet; a picture, or a link to their profile is fine.
7. I only accept cash as payment via **PayPal or CashApp**. No robux, bitcoin, or whatever else y'all are using to pay. Only cash, please.
8. I work on commissions in order of the orders placed. If your commission is on the top of the orders list, I am working on that one first. This way, it's less stressful for me.
9. I am busy with college and work. Please be patient, and do not harass or rush me with my work. I will warn you first, but if you continue to do so, I will cease work on your commission entirely and will refund you your money.

10. Do not beg for "free commissions". Those are called requests, and I do not do requests. If you continue to beg after my warnings, you will get blocked.
11. I do have a blacklist for people who go against my TOS, or people who make me uncomfortable in general. I go based on a three-strike policy. Breaking three of my rules, or having repeat offenses will get you blocked and placed on the blacklist.
