

**A long time ago in a galaxy
far, far away...**

**There was a rebellious
district technology team.
They were destined to
streamline technology, for
our world. It was a
dangerous time.**

**They helped the students
to learn. DTS enriches
education for all. Many**

held strong, dangerous
opinions, revered by some.
“they were amazing ,”
others said of them.

As the team emerged
victorious, agitated, crazy,
enthusiastic, enlightened,
and determined to repeat.
The rebels: splendid and
educated.

May the huddle be with

you.
