NAAC-B+

Yashoda Shikshan Prasarak Mandal's

Yashoda Technical Campus,

Faculty of Pharmacy Wadhe, NH-4, Satara - 41501

Course outcomes

Name of the course: Pharmacology I **Course Code: BP404T**

Semester: IV Class: S.Y.B.Pharm

After completion of course students will be able to

CO	Course Outcomes
BP404T C01	Summerize the fundamental concepts of pharmacology,route of drug administration and pharmacokinetics.
BP404T C02	Understand the basics of pharmacodynamics, adverse reactions, drug interactions and drug discovery
BP404T C03	Identify the role of neurohumoral transmission and drugs acting on peripheral nervous system
BP404T C04	Analyze the functions of neurotransmitters and drugs acting on central nervous system
BP404T C05	Appraise the pharmacology of Psychopharmacological agents and to evaluate the effects of drugs against neurodegenerative disorders and to elaborate the concepts of drug addiction/abuse/tolerance/ dependence

CO-PO mapping

Co-PO mapping Justification

Name of the course: Pharmacology I Course Code: BP404T

Semester: IV Class: S.Y.B.Pharm

CO No.	PO's Mapped	Level	Justification
BP404T C01	PO1	3	Strongly mapped as student can gain accurate pharmacy knowledge highly while studying routes of drug administration,pharmacokinetics
	PO2	2	Moderately mapped as planning abilities of students will be developed while studying routes of drug administration
	PO3	1	Slightly mapped as problem analysis abilities will be least developed
	PO4	2	Moderately mapped as there is moderate use of modern tool usage while studying routes of drug administration, pharmacokinetics
	PO5	1	Slightly mapped as students will develop leadership skills slightly
	PO6	3	Highly reflects professional identity as a pharmacist while studying fundamental concepts in pharmacology
	PO7	2	Moderately mapped as Ethical principles moderately followed while administerning drugs to patients
Pe	PO8	2	Moderately mapped as students will develop communication skills through seminar, group discussion
	PO9	3	Strongly mapped as counsellling regarding routes of drug administration to society can be done
	PO10	1	Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs
	PO11	3	Strongly mapped as lifelong learning is highly achievable
BP404T	PO 1	3	Strongly mapped as student can gain accurate pharmacy knowledge.
C02	PO2	1	Slightly mapped as planning ability in studying adverse drug reaction is least developed
	PO 3	1	Slightly mapped as problems solving ability least developed
	PO 4	1	Slightly mapped as least usage of modern tools in studying adverse drug reaction is least developed
	PO5	1	Slightly mapped as students will develop leadership skills slightly
	PO 6	3	Strongly mapped as pharmacodynamics ,ADR reflects professional identity as a pharmacist
	PO 7	3	Strongly mapped as ethics should be followed in trials to the fullest
	PO8	2	Moderately mapped as students will develop communication skills through seminar, group discussion

PO9				
PO10		PO9	3	
PO 11 3 Strongly mapped as lifelong learning is highly achievable		PO10	1	Slightly mapped as environmental sustainability can be slightly
PO2		PO 11	3	
PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problems solving ability least developed (Ability to identify disease) PO4 1 Slightly mapped as least usage of modern tools in studying adverse drug reaction is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of local anaesthetic for social well being reflects professional identity PO7 3 Strongly mapped as students will develop communication skills through seminar, group discussion PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as convironmental sustainability can be slightly maintained with the use of drugs PO11 3 Strongly mapped as lifelong learning is highly achievable BP404T CO4 PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO4 1 Slightly mapped as leadership skill can be least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO1	3	
PO 4		PO2	1	Slightly mapped as planning ability in studying adverse drug reaction
PO5		PO3	1	
PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of local anaesthetic for social well being reflects professional identity PO7 3 Strongly mapped as thics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs PO11 3 Strongly mapped as lifelong learning is highly achievable PO2 1 Slightly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as planning ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as thics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO 4	1	
reflects professional identity PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs PO11 3 Strongly mapped as lifelong learning is highly achievable BP404T CO4 PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problem solving ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO5	1	· · · ·
PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs PO11 3 Strongly mapped as lifelong learning is highly achievable BP404T CO4 PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO 3 1 Slightly mapped as problem solving ability will be least developed PO 4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO 5 1 Slightly mapped as leadership skill can be least developed PO 6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO6	3	9, 11
through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs PO11 3 Strongly mapped as lifelong learning is highly achievable PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problem solving ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO 7	3	
Councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs PO11 3 Strongly mapped as lifelong learning is highly achievable BP404T CO4 PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problem solving ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO8	2	1
PO11 3 Strongly mapped as lifelong learning is highly achievable		PO9	1	
PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problem solving ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO10	1	
PO1 3 Strongly mapped as Student can gain accurate pharmacy knowledge with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problem solving ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO11	3	Strongly mapped as lifelong learning is highly achievable
with study of drugs acting on CNS. PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO3 1 Slightly mapped as problem solving ability will be least developed PO4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs	BP404T		-	
PO2 1 Slightly mapped as planning ability in studying adverse drug reaction is least developed PO 3 1 Slightly mapped as problem solving ability will be least developed PO 4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO 6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs	C04	PO1	3	
PO 4 1 Slightly mapped as least usage of modern tools in studying neurotransmitter is least developed PO5 1 Slightly mapped as leadership skill can be least developed PO 6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO2	1	Slightly mapped as planning ability in studying adverse drug reaction
PO5 1 Slightly mapped as leadership skill can be least developed PO 6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO 3	1	Slightly mapped as problem solving ability will be least developed
PO5 1 Slightly mapped as leadership skill can be least developed PO 6 3 Strongly mapped as use of drugs acting on CNS for social well being it reflects professional identity PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO 4	1	
PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO5	1	
PO 7 3 Strongly mapped as ethics should be followed while giving drugs acting on Peripheral nervous system PO8 2 Moderately mapped as students will develop communication skills through seminar,group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO 6	3	
PO8 2 Moderately mapped as students will develop communication skills through seminar, group discussion PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO 7	3	Strongly mapped as ethics should be followed while giving drugs acting
PO9 1 Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist PO10 1 Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs		PO8	2	Moderately mapped as students will develop communication skills
maintained with the use of drugs		PO9	1	Slightly mapped as Effect of drugs on health of society can be
		PO10	1	Slightly mapped as environmental sustainability can be slightly
		PO 11	3	

	PO1	3	Strongly mapped as Student can gain accurate pharmacy knowledge.
BP404T C05	PO2	1	Slightly mapped as planning ability while studying drugs against neurodegenerative disorders is least developed
	PO 3	1	Slightly mapped as problem solving ability will be least developed
	PO 4	1	Slightly mapped as least usage of modern tools while studying neurotransmitter is least developed
	PO5	1	Slightly mapped as leadership skill can be least developed
	PO6	3	Strongly mapped as counselling reflects professional identity as a pharmacist.
	PO 7	3	Strongly mapped as ethics should be followed while giving drugs acting on central nervous system
	PO 8	2	Moderately mapped as students will develop communication skills through seminar, group discussion
	PO9	1	Slightly mapped as Effect of drugs on health of society can be councelled by pharmacist
	PO10	1	Slightly mapped as environmental sustainability can be slightly maintained with the use of drugs
	PO11	3	Strongly mapped as lifelong learning is highly achievable
