Étude Elementary

This photo was taken while students were working on math problems!

What We Did During Week Eighteen

We had another great week! Even though our week was cut short by two days, we still managed to get quite a bit done. We spent our week learning about the circulatory system! They were fascinated by how our veins and arteries branch/spider around most of our body! On Thursday, we attempted to draw our circulatory system, using a video that goes step by step. They did a great job, and I was impressed by their tenacity because it was very easy to get lost! I was going to take pictures of some of the artwork on Friday, but school was canceled. I will include them in next week's update-stay tuned!

In Math, students continued to make observations about the January Number Corner markers. We will be working on solving for the missing addend, as well as reading and writing story problems for the markers. Throughout the week, we practiced steps to solve subtraction problems using a number rack.

Students also completed both the STAR Early Literacy and STAR Math tests.

It was my intent to send home learning home on Friday, alas. There was no home learning assigned this week.

What We Are Doing Next Week

Here are the topics that will guide their learning for PBL:

- Finish Circulatory system
 - Parts
 - Purposes
 - Complexities
 - Body book page
- Respiratory System
 - Parts
 - Purposes
 - Complexities

Announcements/Reminders/Things to Note

Here are the announcements for this week:.

1. Home Learning Binders

I will be sending home Home Learning binders every Friday. They will be due the following Friday. This will start Friday, September 22nd. I will send an email the Thursday before with instructions, thank you!

2. Headphones/Water Bottles

Lexia and other resources on Clever have sound on them, so it is important that your child has a **working** pair of headphones. Please check with your child that their headphones work. Also, please make sure that your child has a water bottle with them everyday. This limits the amount of times they leave the room to get a drink down the hall. Thank you!

3. Snack Time

Please pack a snack for your child. We have snack time every day around 1:00PM. The school does not provide snacks for the students.

4. Lunch Hour Supervisors

We are still in need of lunch hour supervisors. The hours are 10:45-12:15 at \$10 per hour. If you or anyone you know are interested, please reach out to Ted or Tammy.

Ted: thamm@etudegroup.org

Tammy: tmadjewski@etudegroup.org

My Information

If there are any questions or concerns, please contact me at any time!
