First Look at the PlayStation 5 User Experience

Source: [YouTube](#)

- Sony showed a first look at how the PS5's UI looks and functions.
- While users are ingame, they can tap the PS button to enter the "Control Center", and offers access to many features without ever leaving the game.
- A new feature called "Cards" allows users to interact with games in a variety of ways.
- Activities will show the player the things they can jump straight into, what they're still working on, and how long it's estimated to complete.
- Game Help is included for PlayStation Plus subscribers.
- The party system is much more robust, and allows users to chat and share content no matter what they're doing.
- Content can be used Picture-in-Picture, or pinned to any side of the screen.

- PlayStation Store is completely integrated into the system, and is no longer a separate app.
