How to watch videos in Panopto (not in myCourses) to have access to more features.

Step 1. Launch the video to watch in Panopto (image below)

Image Description: This shows a video opened in myCourses. There is a large red arrow pointing to a white arrow that students select to launch and watch the video in Panopto (Step 1).
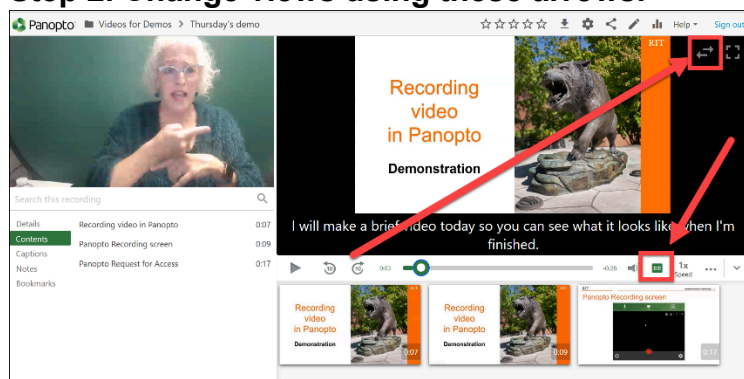

Step 2. Change views using these arrows.

Image Description: Zoomed in look at arrows that switch content and presenter.

Image Description: Video open in Panopto. There is a long red arrow pointing to a feature that switches views. This image shows the presenter in the smaller pod on the left and the content in the larger pod on the right. There is also a short red arrow pointing to cc for turning captions on.
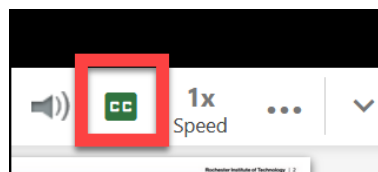

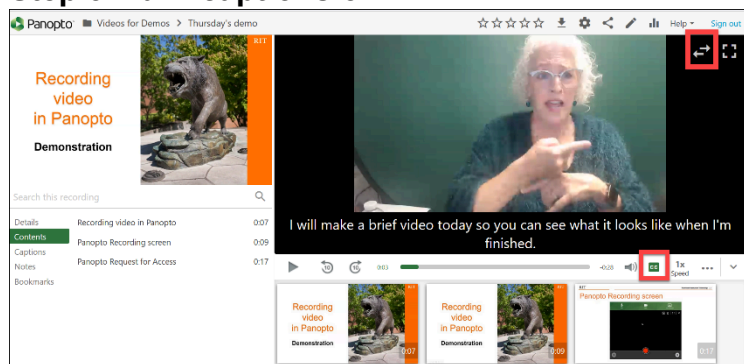

Step 3. Turn captions on.

Image description: Zoomed in look at the cc button for turning captions on.

Image description: Shows the views switched with the presenter now in the larger pod on the right.
