Join me for a poster rush in Richmond
TONIGHT! All you need to bring is a
progressive spirit and I'll provide the posters

2:48 PM - 25 February 2020

/u/ColdSoak stands in front of a small crowd of supporters, preparing to move out around the city of Richmond and cover all bare surfaces with his newest set of campaign posters. He says a few words before they move out

Thank you all for coming to this poster rush, as I like to call it. Tonight we are going to get out there and continue to spread the word of my progressive campaign to save the environment, and fight for the working class of America! I want everybody to take a stack of posters and post them wherever you can, wherever people will see them. Getting the name of our campaign out there is the only way to get the votes we need to win and start enacting the powerful change this state and this country needs! Get out there and be safe!

With that, the crowd disperses, posters and glue in hand. ColdSoak himself takes a stack of posters and walks out into the city. He walks onto the street and quickly finds a wall surface perfect for a poster. He immediately gets to work and puts this poster up:

VOTE FOR NATURE

VOTE COLD SOAK FOR CH-1

ONLY COLD SOAK

HAS LED THE FIGHT ON CLIMATE
CHANGE IN CHESAPEAKE. WHO DO
YOU TRUST TO SAVE OUR PLANET?

PAID FOR BY COLD SOAK FOR CONGRESS 2020

Coldsoak briskly walks down the road, and grabs a different poster, ready to place it on another wall. He is stopped by somebody walking down the street as he is gluing this poster to another wall:

Chesapeake demands climate action

VOTE COLD SOAK SOCIALIST FOR CH-1

For immediate action to fight climate change

JOIN OUR CAUSE TODAY!

Passerby: Hey this looks like a campaign poster. Who is ColdSoak? I've never heard of him before.

ColdSoak: ColdSoak is the progressive congressional candidate for this district. He is a former member of the cabinet and currently serves in the state assembly. He fights for environmental protection, and he was the only member of the assembly to do anything about the water crisis that struck here recently.

Passerby: Sounds like he is a pretty good candidate. Good on you for coming out for him, I'm sure he really appreciates it

ColdSoak: Oh I'm sure he does. Have a great night and don't forget to go vote!

With that, the passerby walks on and coldsoak posts another poster down the road

ONLY COLD SOAK

Has stood up for our environment

Polkadot opposes high speed rail, national efforts to fight carbon emissions, and other necessary steps to defend our planet.

What's more important? The profits of polkadot's campaign donors or the Chesapeake Bay, Chesapeake, and the planet we all have to live on?

Vote ColdSoak for CH-1

Paid for by ColdSoak for Congress

ColdSoak continues posting until he runs out of materials, then he retires back to his apartment, preparing for his next event.
