GAZE REQUIRED SUPPLIES

Software

As a University of Arizona student, you can download Adobe Creative Cloud *at no cost*, while you remain a student. It works on both Macintosh and PC computers. The entire range of Adobe Creative Cloud applications are available to you, but for this class you won't need anything but **Adobe Photoshop** and **Adobe Lightroom Classic**. Be aware that many of these programs take a significant amount of space.

Download it here:
https://adobe.arizona.edu/signup/adobe-creative-cloud

Needed for Next Period

- **Digital camera** (at least 8MP and capable of RAW image capture, not your cell phone)
  (Be sure to have the manual so I can help you troubleshoot)
    - o   DSLR cameras may be available from UA Main Library:
      https://lib.arizona.edu/borrow/tech/s?category=49
    - o   The photo cage has cameras available for FYE students
- 200 GB or larger USB drive to transport and backup digital files

Digital Print Lab Expenses

- Plan on accommodating for the expense of printing your images.
  The current rate for an 8 x 10 inch print with matte or satin finish is $3.50 each.
  For each project you will print a portfolio of between 4 and 5 images, which will run you from $14 to $17.50.

  Four projects x about $17.50 = $70.

Miscellaneous Materials

- Due to the open-ended nature of what you might photograph, the projects you undertake may require found or purchased objects—specific to your direction. Ultimately, you will determine what the budget is here. Do plan on allotting funds to see your vision through.

Additional materials may be required later, per project.
