

Is Your Business struggling to reach its monthly target sales ?

Fear no more as I have a complete guide using direct funnels in the algorithm to enhance your business sales and provide you with endless opportunities!!

Why should you believe me ? What do I bring to the table that no one else does?

I have been taught the best direct observational skills on the planet. Using all the techniques and funnels I've been taught I can spot all the minor errors in your business, tweak them and provide you with endless results. But how does this work? The reason your business isn't as successful is simple. It's just not eye-catching enough, to make the customer's feel obliged to buy your product.. **This is no fault of your own, you just don't have the algorithms you need to follow in order to progress. I know how it feels at the bottom. Cold, muddy lost for ideas ? What if I can replace this with warm, happy and endless ideas... I CAN AND I WILL!!** All you have to do is reach out for help. I am in my prime years right now , more hungry than you could ever imagine. I will use this hunger to drive you to the TOP, trust me!! I will use all my time effectively and use the harshest maneuvers to get you to the peak of your journey.

Whilst looking through your page/ Google reviews I noticed that there were a few really good points that we could use to help drive your business forward... **I also noticed there's a few minor errors having been tweaked and done properly. I believe we could boost your sales dramatically.**

Reading through your reviews was my first mission. I've noticed you've done a great job getting great reviews in the only issue is you haven't replied. Customers will feel more valued when they write a review and get a reply from the business. One customer wrote **"Good place, pretty good staff too. They aren't hesitant about any recommendations and will do their job"** another customer wrote **"Been going here since it opened. Never had a bad trim and you can play fifa while you wait."** You should be proud of yourself receiving reviews like this. Using good reviews like this in direct funnels is a good way to promote and advertise your business.

I also noticed that the social media is not up to much currently. This is where I come in as I can boost posts using a few funnels I've learned to match the algorithm. This will result in more customers finding out about you, Your page being promoted that well that it begins to indoctrinate a person so it's always on their mind. **"Do you remember that fresh feeling of a silky smooth**

haircut? No? we'll come down to Barber king and get the freshest chop on the market”

Quotations and points like this grab the attention of your customers/clients

These are just a couple of the minor issues I noticed that need to be tweaked.

In conclusion I've noticed 7-8 tiny problems that we could fix so you become top of that search engine! But most of all top barbers in Edinburgh. **There's a reason these other companies/businesses do so well they are in on the secret!!! They know how to correctly direct funnels and follow specific algorithms to maximize results in the sales department.**

HAVE YOU GOT WHAT IT TAKES TO REACH YOUR PEAK ?
