I think we should start class at 9:15

-Because some students come late to school.

- Because for children to have a rest at home.

Introduction:

It will be good to start class at 9:15.

Body of my writing

Reason 1: Firstly it's important to start class at 9:15 because some students come late to school. It would be great to start at 9:15 so can get ready to learn. Sometimes there are people that come late because they don't have enough time to get ready.

Reason 2: Secondly it's important for children to have a rest at home before we arrive at school to get ready to learn. When we wake up we should have enough time to get ready before we come to school ready to learn.

Conclusion:

In conclusion with the reasons I talked about my school should start at 9:15.

The school it's most important for me because they have enough people to teach me.They can give me work to do when I go home and the Holiday.I can go and ask them anything I don't understand and they can explain to me to understand more.

When the test come that's when your thinking.Sometimes I think and too hard for me and then I have to go ask to my teacher.When I go to ask they explain me more thinking to help me.When I understand I came to my work with my own thinking.
