- include a brief explanation of the nature of the two sources you selected for detailed analysis, including an explanation of their relevance to the investigation

Paragraphs 2 and 3

- analyse Source 1 in detail. With reference to the **origins, purpose and content**, analyse the value and limitations.

Paragraphs 4 and 5

- analyse Source 2 in detail. With reference to the **origins, purpose and content**, analyse the value and limitations.

Hard stop, there is no conclusion paragraph!
