Course Policies

Participation

There are five categories for daily participation points: timeliness, effort, focus, attitude, and dress. Any student who is more than 5 minutes late will lose points and earn a tardy. On the third time that a student does not dress out, they will receive a detention. As of now, always assume we are dressing out; I will let you know via Remind and social media if we are not dressing out.

Attendance

All absences can be made up through alternative assignments; this includes school business. You may follow the guidelines on Google Classroom.

Safety

The student's safety is incredibly important; therefore, students must be responsible for stretching prior to engaging in activities. Students should not push themselves to perform movements or stretches that they are not prepared to do. If a student feels injured, they should immediately stop dancing to assess the situation.

Parents and students; please fill out the following online survey: <https://forms.gle/YRLt8zbjkz1ssmrB7>
